FANTAZY

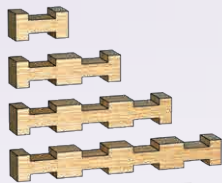

60 parts 120 parts 240 parts

universal series 5+

FANTAZY BUILDING SET is an all-purpose building set with fantastic performance of capabilities! It is not limited by any framework and so, children can create anything they want inspired by their unlimited imagination! There are different size sets available - 60, 120 and 240 parts depending on kid's age and needs.

5+ is an age for great singly playing this building set, but we recommend parents to present this developmental toy to their kids earlier (3+).

The parts of Fantasy set are uniquely structured by sizes:

This size proportion makes **FANTAZY PLANK BUILDING SET** multi-functional – it gives the children possibility to make simple type mosaic and complex three-dimensional shapes!

mosaic models

3D models

FORTIFICATION

CONSTRUCTION SET "FORTIFICATION" –

282
parts

is the protective walls of the fortress city, they were built around a settlement shielding and protecting against an attacker. Usually there were fighting moves inside walls. Beyond their protective functions they also carried symbolic meaning - to show the status and independence of communities living behind the walls. The landscape of survived castles shows that often behind the walls outside there was a ditch with water, which also helped to increase the level of protection of the fortress.

The set consists of 282 parts, makes it possible to plunge into the historical past, build fortifications, and other objects due to our instructions or fantasizing yourself!

Size assembled: 30 x 30 x 12 cm

Weight: 1,5 kg Package size: 32 x 32 x 14 cm

Get 4 sets of "Fortress" Series and build the ancient city with entrance gates, towers, defensive walls and castle based on scheme on our website or imagine and make up your own castle!

THE BENEFITS OF PARTNERSHIP:

- IGROTECO is a brand with stable reputation
- Flexible conditions of cooperation
- CE certificates are available
- IGROTECO is the Ukrainian producer with own production facilities
- Advertising and marketing support
- Wide range of products – universal and thematic
- Actual activity – the market of wooden educational toys is growing faster each year

ADVANTAGES OF IGROTECO PRODUCTS SETS:

ENVIRONMENTALLY FRIENDLY

Our toy is made out of beech – wood of solid kind and the most energy intensive material in the world! It is ecological and safe for the environment and human at all stages of production - raw materials, finished product, operation, utilization.

SAFETY

The absence of harmful additives and sharp details guarantees physical safety of a small child. The absence of light and audio elements that overload a child's psyche ensures healthy psycho-emotional child development.

CREATIVE AND MOTOR SKILLS

Plank building set can be considered the best game because children, connecting parts in a different way, can endlessly develop their fantasy and imagination, each time inventing ever new models! Children develop fine motor skills, preparing for school through play.

SPATIAL THINKING, ATTENTION

Logical thinking is developed, because in order to pick up even the simplest model, you need to carefully consider how to connect the parts. The ability to work with a manual that is according to an assembly drawing is an important skill that will contribute to rapid and effective learning at school.
